

# Michelle Machado

## WHO I AM

I am a Full Stack developer with an emphasis on Front-End. I'm studying Systems Analysis and Development at Unisinos and a technical course in networks at QI.

I graduated in Marketing and added periods of internships and formal work, I worked in the area for 4 years. I had great experiences as a designer, gaining a lot of experience with UX and UI, but over the years, I acquired other professional interests in relation to technology.

## EXPERIENCES

### BONGÔ COMUNICAÇÃO | 2023/10 - AT THE MOMENT

#### Front-End Developer and UX Designer

I prototype websites and applications using Figma or Adobe XD. Furthermore, I have already programmed e-commerce websites with Wordpress, as well as institutional websites.

### SULSYSTEM | 2022/09 - 2023/07

#### Back-End Developer PHP

I carried out maintenance on the Phonosystem system, fixing bugs, adding new features and making improvements to existing features.

### GRINGA AGENCY | 2021/05 - 2022/03

#### UX Designer

At an agency, I played an important role in creating social media and website and application planning, using Figma and Adobe XD.

## TRAININGS

### LABENU | 04/2022 - 09/2022

#### Web Development Bootcamp

Program with more than 1000 hours of practical experience in Full-stack development. Among the skills learned during the course are HTML, CSS, JS, React, Styled-Components, React Hooks, REST, Restful Api, etc.

### UNISINOS | 10/2023 - AT THE MOMENT

#### Analysis and Systems Development

The degree in Systems Analysis and Development at Unisinos is one of the best in Rio Grande do Sul. According to the MEC, and is the first in Latin America with an emphasis on the quality of software processes.

### COURSE TECHNICIAN | 01/2024 - AT THE MOMENT

#### Technical Course In IT For The Internet

The course covers operating systems and networks, application and systems development, internet of things, software quality analysis, automation of business systems, among others.

## SKILLS

HTML CSS React.JS GitHub Git  
Styled-Components React.Hooks SQL  
MySQL HTTP Jest Node.JS AWS  
API Rest Firebase Figma UI/UX  
Kanban Scrum Next Vue Angular  
JavaScript Typescript JAVA PHP

## PROJECTS

### POKEDEX

The project was built in a group, using a public Pokemon API. Together, we built a website with a pokemon battle, a pokedex (which can be removed) and a list of pokemons.

### FUTUREEATS

Working as a group, we built an application similar to Uber Eats, with login, registration, restaurant menu, cart, order in progress message, profile tab, among other features.

## VOLUNTEER WORK

### EXPENSAS ONLINE

International internship in Córdoba, Argentina. I stayed in the country for 2 months to gain experience and experience new things. My objective was to structure a visual identity for the Expensas Online brand, as well as starting the startup's social media.
